HC PACKINGLANE	Oké	Oké	Oké	Oké	Oké
60K PACKINGLANE	Oké	Oké	Oké	Oké	Oké
FARMPACKER	N.A.				

Traystacker	N.A.
Multi-loader	N.A.

REMARKS:
Boxes running well on the packing lanes.
Because of the heavy weight of the boxes we used some special wedges to make it run well.
The boxes have a good dimensional stability, because of the cardboard
Testing result denester: 0 :100 on new packs - one time two attempts but still running.
Temperature: 20° C
Humidity: 71%
Transportation out of the denester is al little bit restless because of the high friction between box and transportbelt, but this has no negative effect on the efficiency
CONCLUSION: OKÉ
